WITH IRREGOLARE FESTIVAL AND APUGLIA REGION, AND MUNICIPALITY OF LECCE, GOBELINS
IMAGE SCHOOL IN PARIS AND ITALIAN CHAMBER OF COMMERCE IN LYON

BELLISSIMA LECCE

**Produced by WWS in collaboration with
Irregolare festival.**

**Artistic director Susanna Dimitri and
Sara Colonna**

PROJECT DESCRIPTION

"Bellissima Lecce" project is located within the ART section of Irregolare Festival, taking place in Puglia, Italy, since 2018. The main theme is trance and modified states of consciousness in art. The 2021 edition includes international collaboration with France. "Bellissima Lecce" is an experimental project combining drawing, site specific performance and architecture. Its goal is both to create a new and poetic experience and to link the cultural heritage to visual work. Organized by the French company World Wide Society, it curated by Susanna Dimitri and Sara Colonna.

IRREGOLARE FESTIVAL <https://www.irregolarefestival.com/>

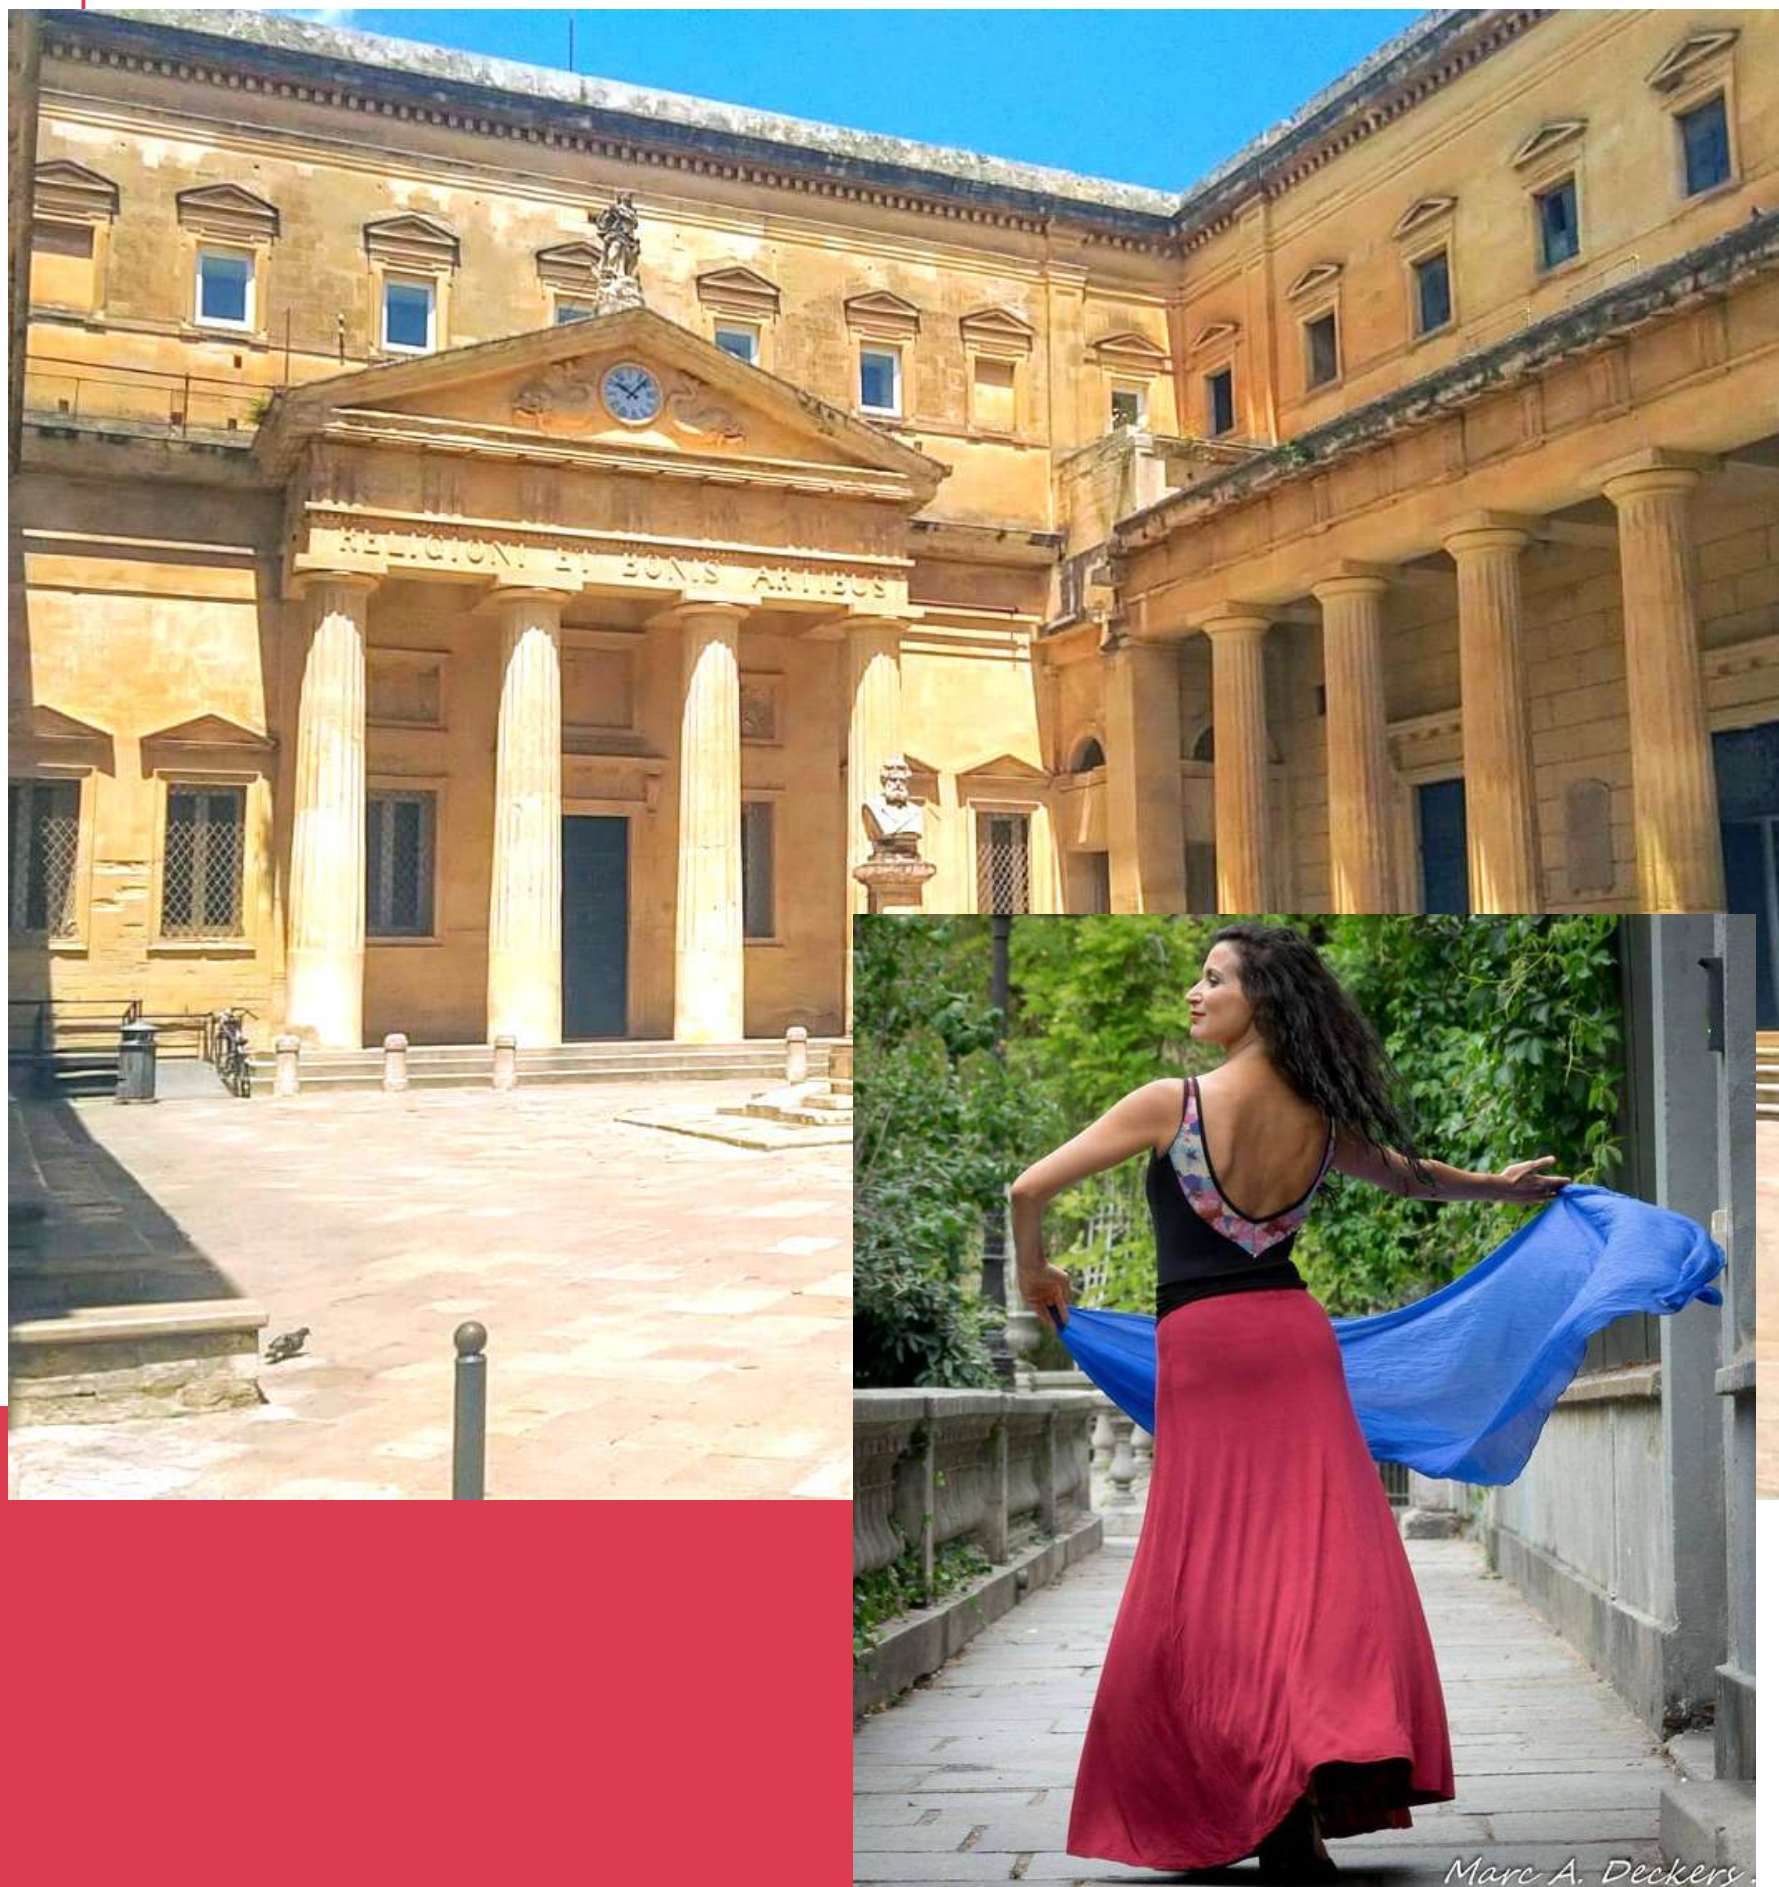

A group of international painters are invited to discover and draw the historical city of Lecce that will be an **open-air atelier**. The city is enhanced by the international encounter between cultures and people and finally the public, made of tourists and local, is a happy user of all this. There will be a collaboration between the collective of pictorial artists, the performers and the operators of the festival.

4 DAYS focus on drawing and in the typical popular tradition of Lecce.

VIDEO TEASER BELLISIMA LECCE

Irregolare Festival make emblematic spaces of the city center available to the Art Section of the Festival: the Polo Biblio Museale which includes the Museo Castromediano and the Convitto Palmieri, as well as certain historic palaces, such as the Palazzo Turrisi and the Palazzo Rollo, which will be also our partner for the accommodation of painters.

In the city center we will present traveling performances of dance, theater and live music, Night & Day and indoors and outdoors, which will take place throughout the program.

We have an interior "model vivant atelier" and numerous outdoor performances in the historic center of Lecce and in museums. Tastings of typical products and final exhibition open to the public on DJ set.

BELLISSIMA

a series of experimental journeys between Architecture,
Drawing and Performance

We decided to join the Irregolare Festival in LECCE because it is perfectly in line with our idea of extending the work to the most beautiful international cities. We started from Napoli in 2019, in collaboration with the National Archaeological Museum and the catacombs of San Gennaro.

We are organizing a final exhibition with a selection of works in Paris for 2022.

Filmed Storytelling

An artistic and creative documentary conceived and produced by Gobelins school of image in Paris, in which we will find the power of art in its relationship to the city, heritage and inhabitants.

Cities become open-air ateliers

Bellissima Lecce is an essential opportunity for the growth of our work. Thanks to this experience we have the possibility of creating a synergic "working group" and experiment various ideas in the field. The support and the possibility to take advantage of the media network of Irregolare festival will allow us to have an international visibility, to enhance our concept of artistic and experimental journey. The collaboration with a recognized reality like Irregolare Festival would also allow us to gain credibility for the next proposals.
